Solutions we offer

- Lighting Automation
- Curtain Control
- AV Automation
- HVAC Temperature Control

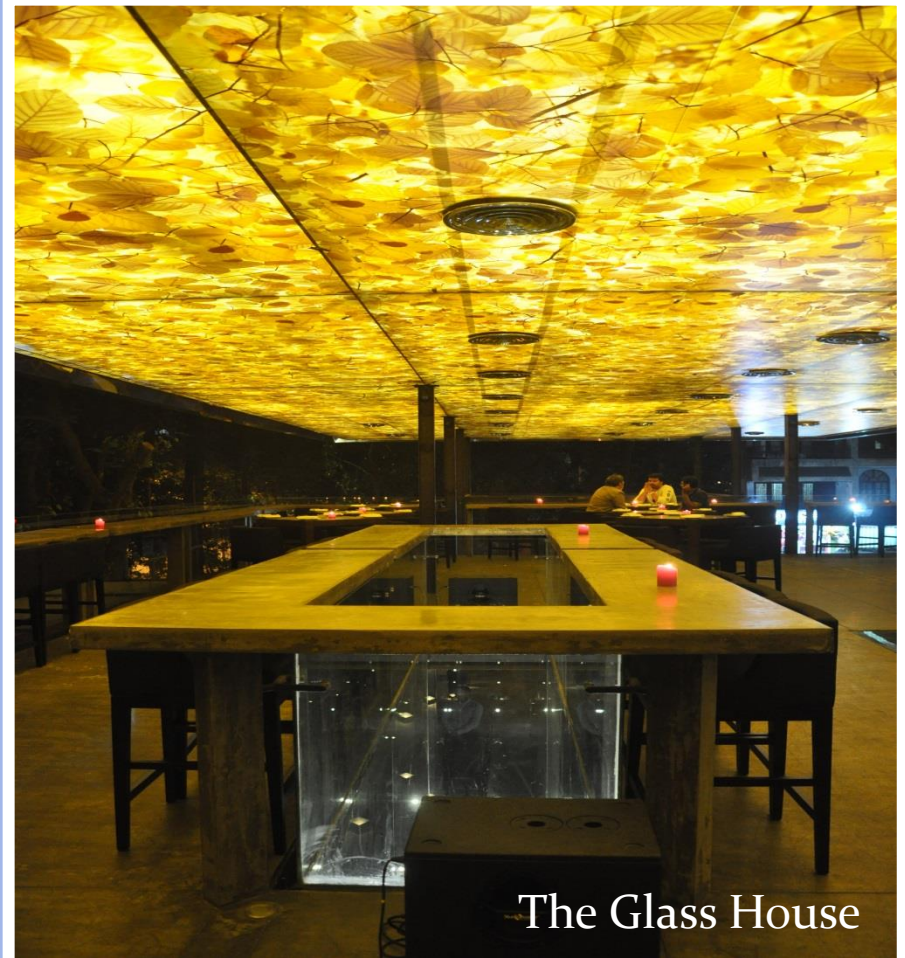

Need for Lighting Automation

- Comfort & Pleasure for Diners.
- Saves Electrical Energy.
- Reduces the work flow.
- Zone wise lighting of the whole Restaurant can be controlled & viewed on one central interface i.e IPAD.

Lighting Solutions for Restaurant

- Variation in the intensity Of Lights.
- Mood & Theme Based Lightings.
- Time Based Lighting Control.

The Glass House

Curtain & HVAC Control

- **Save time** and simply press a button and watch motorized curtains glide with ease.
- **Looks and Durability of the Curtains lasts longer** as they are smoothly controlled by the user interface application on IPAD.
- **Controls all the A/C Units from a single location** without using Remote.

A/V Automation

- Controls Projection Screen & Projectors.
- Control the A/V Using the same APP on IPAD.
