What is the difference between an Automated and a Normal Home?

Automated Homes are Simpler and More elegant. Yet, provide more flexibility in functionality. An example: A single smart wall panel switch replaces many normal switches and equipment like: dimmers, thermostats, volume controllers, water boilers, lights and fan speed..etc.

G4

SMARTHOME GROUP

In a smart Home a simple touch on your smart Phone, or a prèssing a single button can automatically activate or deactivate any or all of the following in a scene macro command:
Dim Lights to certain level in different Area, start the Air Conditioning, Open or close the shades, start Music in the Hallways, start TV and DVD or the Set Top Box in the Living Room, Heat up the coffee Machine, Start Water Boilers, Activate and switch the Security Alarm to Night Mode and so on...

The Other Difference is the ability of the SmartHome to conserve energy by decreasing wastage, securing the home, and maintaining air quality which makes it a better investment with monthly returns and a real value for the money.

What is Smart-BUS G4?

Smart-BUS G4 Automation is the fourth generation of S-BUS Automation entertainment and control System solutions. This system is unique as it allows installers to wire flexibly, Install and program by hand easily. Smart-G4 is also Unique for Users, because of its simplicity and user friendly interface, Luxury finishes, and affordability.

Is G4 Automation Expensive to Implement?

Smart-BUS G4 Automation is exceptionally Affordable and therefore the Bigger the Project and the more standard Systems needed (like: Lighting, Air conditioning, Security alarm, PA/BGM, Door Access,++) the Cheaper the Smart G4 system shall become.

Does Smart-G4 Automation System Save Energy?

Yes, Smart-BUS Automation can save between 30% - 80% of wasted energy if a comprehensive System is designed and implemented accurately. This saving in wastage also enhances the effective usage time and decreasesreplacement and repair costs.

Can Smart-BUS G4 be implemented in Old Homes?

Yes, Smart-BUS Automation is an extremely flexible and Modular system. It has been implemented in many finished, either old or already Built Homes. We understand the Complexity and how to reach solutions with Minimal wall and ceiling wiring repair needs. Old Home Owners can invest happily in G4 Automation and benefit a lot. (Our Consultants are ready to assist in the System Design and solution Implementation)
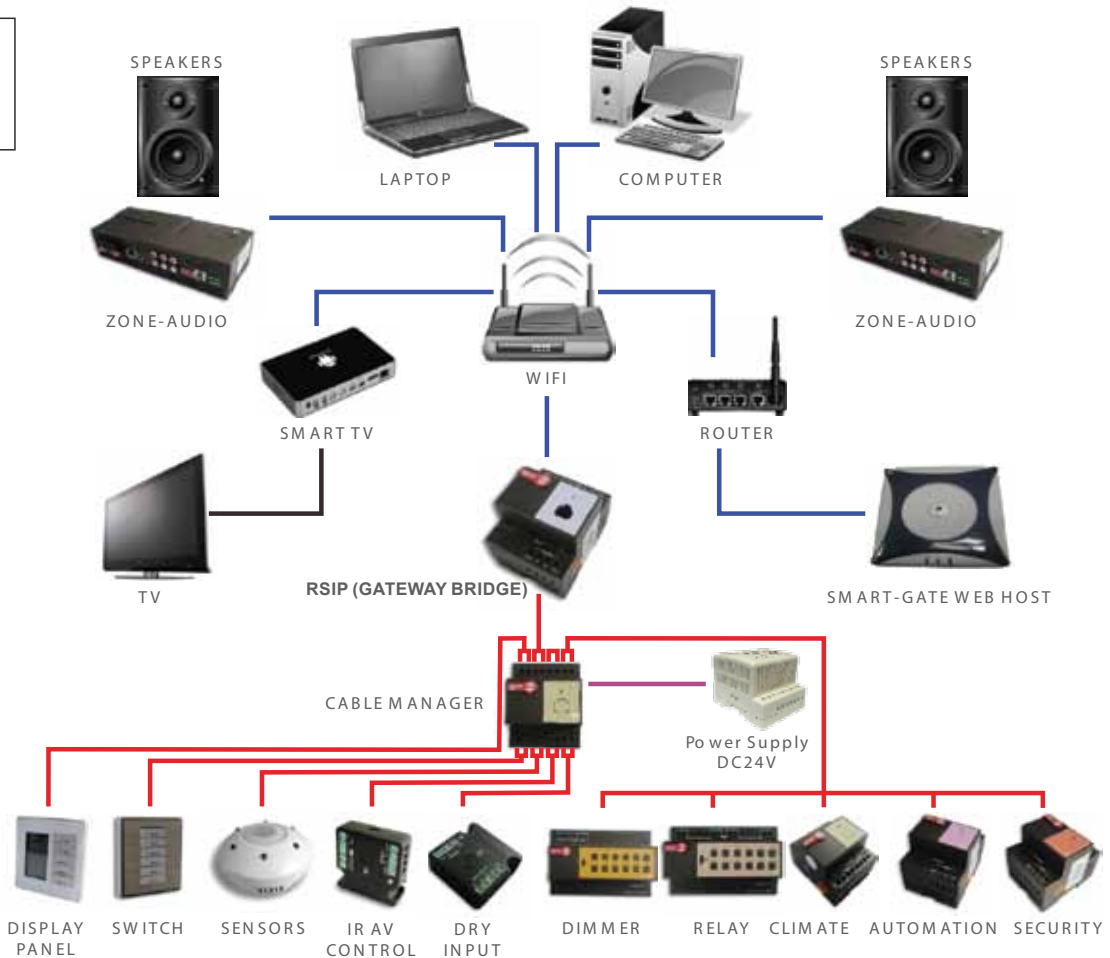

Why Go G4?

Among the Many reasons to choose G4 by
Smart-Industry Group are:
- Available, Stable & Widely tested
- Affordable
- Elegant to extreme Luxury
- User friendly
- Expandable
- Easy Wiring
- Fast Programming and configuration
- Continuous Research & Development
- Excellent Support
- Expanding Global Network

Home Automation (SMART HOME)

SMART BEDROOM

1- Mood Lighting & Dimming
2- Universal Touch remote
3- Home Theater & Gaming Link
4- LED Floor Tiles
5- Controlled Power Curtains
6- Floor Heaters
7- Ceiling Speakers
8- Smart switch
9- Air Conditioning Control
10- 9 in 1 Sensor

SMART BATHROOM

1- Heated Floors
2- Smart Wireless Touch screen
3- Mood Lighting and Dimming
4- Auto Soap Dispenser
5- Smell Control & Smart Toilet Seat
6- Jacuzzi Control
7- Healthy Temp Control
8- Enchanted Battery candles
9- Controlled Water Heaters
10- Bath TV & Music

SMART KITCHEN

1- Smart Kitchen Appliances
2- Flip Top TV & Intercom
3- CCTV Camera Monitoring
4- Phone & Data WIFI
5- LED Mood Lighting
6- Controlled Power Curtains
7- 9 in 1 Sensor / Safety
8- Gadgets & Accessories
9- Air Conditioning Control
10-Smart DDP Switch
11- Smart Touch Screen Panel

SMART LIVING ROOM

1- Designer Mood HD TV
2- Scene Lighting and Dimming
3- IR Network & Presence sensors
4- Phone & Data WIFI
5- Surround Music
6- Smart DDP Switch
7- Motorized Projector Lift
8- Motorized Projection Screen
9- DDP Projector
10- Wireless Table top Touch Screen
11- Media Streaming Set Top
Box & Decoders
12- Air Conditioning Control
13- Universal Remotes

SMART DINING ROOM

1- Motorized Art TV & Plasma Lift
2- Controlled Power Curtains
3- Background Ambiance Music
4- Universal Remote
5- 9 in 1 Sensors
6- LED Tiles & Mood Lights
7-Smart HVAC & Temperature
8- Battery Candles
9- DLP panel
10- Smart Touch Screen
11- Emergency Spot Light

SMART CINEMA HALL

1- High End Art Speakers
& Subwoofers
2- Star & FO Lighting
3- CCTV Camera
4- Scene Lighting and Dimming
5- Colored LED Lighting &
Wall Washers
6- Motorized Projector Lifts
7- Fixed & Motorized Cinema Screen
8- High Quality DLP Projectors
9- Handheld and fixed touch screen
10- AV Player & Receivers
11- Digital Storage Media / Films.

SMART OUTDOOR

1- CCTV Camera
2- Pool Guard Alarm
3- Resound Garden Speakers
4- LED Globe Solar floating Lights
5- Robot Grass Mower
6- Pool Water Temperature Control
7- Microwave active Fence Control
8- Underwater LED Lighting
9- Fountains Control
10- Siren and Flasher Alarm / Alerter

SMART HOTEL ROOM

1- Bedside Smart-Hotel DLP
2- Mood Lighting & Dimming
3- Media Streamer Color Screen
4- Phone with Message Waiting
5- Intelligent Door Bell & Access Reader
6- LED Floor Tiles
7- Mirror Defogger
8- Cool Panel PC with WIFI
9- Video on Demand
10- Hotel Smart 5 in 1 energy saving sensor1
11- Controlled Power Outlets
