

Invitation

**Get the chance to learn more about innovative Cambodian eco-projects
and meet the people behind it!**

Enjoy free water & fresh fruits! The entry is free.

Our highlights in September:

We are proud to present the **SMART energy saving S-WAVE SMARTHOME BUS** with an eco-friendly model home which is on display in front of Meta House. Inside the gallery you will find an **Audio-Visual Jungle Installation!** While relaxing to natural sounds, you can have a look at the Australian Indigenous exhibition **“Message stick”** and enjoy a delicious coconut-cocktail.

Furthermore, at the **Eco-Trade Fair** you have the chance to learn more about NGO’s and their work, like **Nature Saves Cambodia, Bike 4 Kids** and more, and to talk with representatives. This is accompanied with some interesting presentations on our rooftop: **AIESEC students** will talk about their project **“Green Hope”** which raises awareness towards environmental issues amongst Cambodian youth. In addition, **“Future Living Studio”** present their innovative design workshop for sustainable furniture.

Please participate in our interactive **Environmental Networking** game, with a “paperless pictiory”. WineHall offers organic and eco-friendly wines for our **Eco-Wine tasting corner**.

In the ArtCafé we showcase **photographs of rare Cambodian Birds** by Birds of Cambodia Education & Conservation photographers. Live music by Phnom Penh’s only ambient music outfit **Electronic Universe** feat. DJ Nicomatic, Tim King, James Speck and friends.

Be smart, be there!

Nico Mesterharm & Meta House team
