</tr>
</tbody>
</table>

**Test flow:**

1. **To Determine lead Content:**
   - Weigh the sample into a vessel.
   - Add the digestion solution, close the microwave vessel.
   - The sample is digested in the microwave oven following a specific decomposition program.
   - Cooling the vessel, filter; washed and filled to the mark with distilled water.
   - Tested by ICP-OE
   - Report

2. **To Determine Cadmium Content:**
   - Weigh the sample into a flask.
   - Added the acid digestion solution and heated until the decomposed solution turns pale yellow.
   - Cool down, Hydrogen peroxide is added. The sample is heated once again until white fumes are generated.
   - Filter; washed and filled to the mark with distilled water.
   - Tested by ICP-OE
   - Report
3. To Determine Mercury Content:

Weigh the sample into a vessel. → Add the digestion solution, close the microwave vessel → The sample is digested in the microwave oven following a specific decomposition program → Cooling the vessel, filter; washed and filled to the mark with distilled water → Tested by CV-AAS.

4. To Determine Hexavalent Chromium Content:

Weigh the sample; add the digestion solution. → Stir while heating the samples continuously to 90-95°C → Gradually cool each solution to room temperature → Filter; washed and filled to the mark with distilled water → Transfer a portion of the solution to absorption cell, measure the absorbance with UV-VIS. → Add the diphenylcarbazide solution and adjust the pH to acidic.

5. To Determine Hexavalent Chromium Content in metals: spot-test:

For a metal plate sample, place 1-5 drops of test solution on the sample → If the test result is positive for the sample, the sample is considered to have a hexavalent chromium coating → If the test result is negative, some testing steps are carried out to confirm that the result is negative or positive.

When ever the analyst is not certain about the spot-test result obtained, the boiling-water-extraction procedure shall be used to verify the result.

6. To Determine PBBs / PBDEs Content:

Add 100mg +/- 10mg of the sample into the extraction thimbles. → Add appropriate surrogate and, matrix spiking standards. → Add extraction to flask; extract for appropriate hours. → Collect extract, filled to the mark with solvent. → Tested by GC-MS.

中国合格评定国家认可委员会
实验室认可证书
（注册号：CNAS L3503）

兹证明：

深圳市安博技术服务有限公司
广东省深圳市南山区港湾大道东内环路南能源工业小区一栋一楼，518054

符合 ISO/IEC 17025：2005《检测和校准实验室能力的通用要求》
（CNAS-CL01《检测和校准实验室能力认可准则》）的要求，具备承担
本证书附件所列检测服务的能力，予以认可。

获认可的能力范围见标有相同认可注册号的证书附件，证书附件是
本证书组成部分。

签发日期：2011-06-24
有效期至：2014-06-23
初次认可：2008-05-19
更新日期：2011-06-24

中国合格评定国家认可委员会授权人

中国合格评定国家认可委员会（CNAS）经国家认证认可监督管理委员会（CNCA）授权，负责实
施合格评定国家认可制度。CNAS 是国际实验室认可合作组织（ILAC）和亚太实验室认可合作组
织（APLAC）的多边互认协议成员。
China National Accreditation Service for Conformity Assessment

LABORATORY ACCREDITATION CERTIFICATE

(Registration No. CNAS L3503 )

Shenzhen Anbotek Compliance Laboratory Limited

1/F., Building 1, SEC Industrial Park, South of Neihuan Road &
East of Gangwan Road, Nanshan District, Shenzhen, Guangdong, China

The scope of accreditation is detailed in the attached appendices bearing the same registration number as above. The appendices form an integral part of this certificate.

Date of Issue: 2011-06-24
Date of Expiry: 2014-06-23
Date of Initial Accreditation: 2008-05-19
Date of Update: 2011-06-24

Signed on behalf of China National Accreditation Service for Conformity Assessment

China National Accreditation Service for Conformity Assessment (CNAS) is authorized by Certification and Accreditation Administration of the People’s Republic of China (CNCA) to operate the national accreditation schemes for conformity assessment. CNAS is the signatory to International Laboratory Accreditation Cooperation Multilateral Recognition Arrangement (ILAC MRA) and Asia Pacific Laboratory Accreditation Cooperation Multilateral Recognition Arrangement (APLAC MRA).
Anbotek Compliance Laboratory Limited
1/F, 1/Build, SEC Industrial Park,,
No. 4 Qianhai Road, Nanshan District,,
Shenzhen, 518054
China

Attention: Daniel zhu

Re: Measurement facility located at Nanshan District, Shenzhen, China
Anechoic chamber (3 meter)
Date of Listing: August 20, 2010

Dear Sir or Madam:

Your request for registration of the subject measurement facility has been reviewed and found to be in compliance with the requirements of Section 2.948 of the FCC rules. The information has, therefore, been placed on file and the name of your organization added to the list of facilities whose measurement data will be accepted in conjunction with applications for Certification under Parts 15 or 18 of the Commission's Rules. Please note that the file must be updated for any changes made to the facility and the registration must be renewed at least every three years. Please also note that this registration does not recognize the measurement facility to perform testing for products authorized under the Declaration of Conformity (DoC) process. In order to test products subject to DoC authorization process, a measurement facility must be accredited and recognized by the FCC.

Measurement facilities that have indicated that they are available to the public to perform measurement services on a fee basis may be found on the FCC website www.fcc.gov under E-Filing, OET Equipment Authorization Electronic Filing, Test Firms.

Sincerely,

Katie Hawkins
Electronics Engineer
August 30, 2010

Anbotek Compliance Laboratory Limited
1/F, 1 /Building, SEC Industrial Park
No. 4 Qianhai Road, Nanshan District, 518054
Shenzhen, China

Attention: Daniel Zhu

Dear Sir/Madame:

The Bureau has received your application for the renewal of a 3m alternative test site. Be advised that the information received was satisfactory to Industry Canada. The following number(s) is now associated to the site(s) for which registration / renewal was sought (8058A-1). Please reference the appropriate site number in the body of test reports containing measurements performed on the site. In addition, please keep for your records the following information;

- The company address code associated to the site(s) located at the above address is: 8058A

Furthermore, to obtain or renew a unique site number, the applicant shall demonstrate that the site has been accredited to ANSI C63.4-2003 or later. A scope of accreditation indicating the accreditation by a recognized accreditation body to ANSI C63.4-2003 or later shall be accepted. Please indicate in a letter the previous assigned site number if applicable and the type of site (example: 3 metre OATS or 3 metre chamber). If the test facility is not accredited to ANSI C63.4-2003 or later, the test facility shall submit test data demonstrating full compliance with the ANSI standard. The Bureau will evaluate the filing to determine if recognition shall be granted.

The frequency for re-validation of the test site and the information that is required to be filed or retained by the testing party shall comply with the requirements established by the accrediting organization. However, in all cases, test site re-validation shall occur on an interval not to exceed two years. There is no fee or form associated with an OATS filing. OATS submissions are encouraged to be submitted electronically to the Bureau using the following URL;

If you have any questions, you may contact the Bureau by e-mail at certification.bureau@ic.gc.ca. Please reference our file and submission number above for all correspondence.

Yours sincerely,

Dalwinder Gill

This is to confirm that

Anbotek Compliance Laboratory Limited
1/F, 1/Building, SEC Industrial Park, Qianhai Road, Nanshan District, Shenzhen 518054, Guangdong, P.R. China has been accepted by

TÜV SÜD China Shenzhen Branch – 6th Floor, H Hall, Century Craftwork Culture Square, No. 4001, Fuqiang Road, Futian District, 518048, Shenzhen, P. R. China for cooperating in on-site witness projects according to the standards in attachment

This document states that the above named company is included in the TÜV SÜD PRODUCT SERVICE GROUP (TÜV SÜD) Listing of Recognized Laboratories and is qualified in compliance with the TÜV SÜD External Test Laboratory (ETL) program for the mutually agreed product categories and/or standards.

As far as the testing facilities meet the relevant requirements of this program and the tests of the projects are conducted under the supervision and witness of the engineer(s) of TÜV SÜD China Shenzhen Branch, the test results can be used as a basis for a TÜV SÜD certification.

Attestation No.: SCN1027
Expiration Date: 2012-06-07

TÜV SÜD China – South Region

Anbotek Compliance Laboratory Ltd. states:

Name of Laboratory

[Initial all appropriate paragraphs]

Y It has conducted tests using the applicable test method specified above within the previous 12 months;

Y It agrees to and does interpret and apply the applicable test method set forth in Section 1604 precisely as written;

Y It has, and keeps properly calibrated and maintained, all equipment, material, and facilities necessary to apply the applicable test method precisely as written;

Y It agrees to and does maintain copies of all test reports, and provides any such report to the Executive Director on request, for all basic models that are still in commercial production;

Y It agrees to and does allow the Executive Director to witness any test of such an appliance on request, up to once per calendar year for each basic model; and

Y It agrees to, and will follow, all applicable provisions of the California Energy Commission's Appliance Regulations (Section 1601 - 1608 of Title 20 of the California Code of Regulations), in carrying out all testing pursuant to this application.

I declare under penalty of perjury of the laws of the State of California, that:

All the information in this statement is true, complete, accurate, and in compliance with all applicable provisions of Sections 1601 - 1608 of Title 20 of the California Code of Regulations; and

I am authorized to make this declaration, and to file this application, on behalf of Anbotek Compliance Laboratory Ltd.
